Subject: Re: Fiber Route

To: Dustin Stansbury <[REDACTED]>

Thanks for the explanation, Dustin. I was curious how the original point was chosen since it landed on a residential home when I pulled the map up. Yes, we could certainly look at options for a meet point. I need to visit with my team about it, but they are out today, so let me get back to you tomorrow or by the end of the week.

Thanks for reaching out,

Jill,

As you are aware DLS is proposing to build a fiber route to Argonia. Our feed that we are proposing will come from Harper. DLS is not looking to build in your ILEC, just a transport cable through. We will publicly address that to KBAG in our response.

That being said, would KanOkla be open to providing us a Meet Point/ peering to provide us a closer distribution source for this build? DLS is committed to this build whether we get KBAG funding or not. That would keep us from building in your ILEC.

Please respond to discuss in more detail if KanOkla is interested.

Thanks,

Dustin Stansbury

President
